CLASSIC BARBERING COURSE

1

BEGINNING

PREREQUISITE: ALL ARE WELCOME

The much needed first step to understanding Schorem™ shapes and how to achieve them. In this course, you will learn the two longest haircuts.

This is a great course to get your feet wet and start to understand the techniques we use as the foundation of all our classic haircuts. We will also focus a great deal on product application and styling.

Please note: these longer shapes are mostly achieved with shear and comb and require very minimal clipper work.
